Cattle Country Video

Welcome Valued Customers,

We at Cattle Country Video are pleased to announce the offering for The Oregon Trail Classic video auction to be held August 9th and 10th at the Gering Civic Center in Gering, Nebraska. We will be offering approximately 77,071 head of the finest cattle from the High Plains and Rocky Mountain regions. The sale will start at 8:00 am MT on Tuesday, August 9th, with 46,855 head of yearling feeder steers and heifers, followed by 540 head of bred cows. On Wednesday, August 10th, at 8:00 am MT, the sale will feature 29,676 head of calves (3,353 weaned).

The Oregon Trail Classic will be broadcast live on Dish Network channel 998 (this channel is part of the high-definition package from Dish Network) and online at www.cattleusa.com under the Cattle Country Video tab. The catalog and video for individual lots can be previewed at www.cattlecountryvideo.com by clicking on the catalog tab. For more information, or to register for a buyer's number, please call (575) 781-0196 and ask for Wayne. Questions on individual lots of cattle can be directed to the representative whose contact number is listed with the lot.

Please be aware of several options in our yearling offering. If these options are exercised it could create a difference in the time certain lots will sell. Please check in often to our progress.

Please plan to join us Tuesday evening, August 9th, at the Five Rocks Amphitheater for cocktails and a steak barbeque starting at 5:30 pm. Please RSVP by August 5th, by calling (575) 781-0196 or (307) 532-3333. We encourage all buyers and sellers to attend. It is a great opportunity to visit with old friends and make new ones.

Our next video auction will be Thursday, September 15th, 2022 in Cheyenne, WY. The consignment deadline is Friday, August 26th, 2022.

We will be hosting a Ranch Rodeo on the afternoon of September 15th. It will start approximately at 2:30 PM following our video auction, so please come and enjoy the Rodeo with us. You can call Ty Thompson for more information. His number is (307) 340-0770.

Cattle Country Video is celebrating its 13th year of production. Thank you for your continued support and for trusting us to help you with your cattle marketing needs. We hope to see you on The Oregon Trail!

Sincerely,

Cattle Country Video Staff

Lex Madden, Michael Schmitt, Chuck Petersen

Leah Wayne Overton & Ellie Schmitt

BUYERS

ALL BUYERS WISHING TO BID ONLINE ON WWW.CATTLEUSA.COM OR BY PHONE SHOULD REGISTER ON OR BEFORE AUGUST 5TH, 2022

WATCH AND BID ON THE INTERNET

Internet viewing and bidding can be done at www.cattleusa.com. You must register prior to sale day to be able to either view or bid. Registration can be done @ www.cattleusa.com. You will receive an email confirming your registration. Each individual will have a different viewing experience as your speed depends on your internet provider. A speed test can be done at www.speedtest.net and your connection speed should be at least 800 kbts or greater.

AUCTION TERMS:

- Every effort has been made to assure the correctness of this catalog, but all announcements from the auction block shall take precedence over the printed material.
- Every buyer must be properly registered and have a buyer's number to bid and participate in auction. Participation in auction expressly means that the buyer agrees to adhere to these terms and conditions of auction.
- If any dispute arises between two or more bidders, the auctioneer may immediately put the lot up for sale again and resell to the highest bidder. The decision of the auctioneer shall be final and absolute.
- The auctioneer reserves the right to reject any and all bids and the record of sale kept by the auctioneer and clerk will be taken as final in the event of any dispute.
- This is a load lot sale. A load of cattle is 42,000# net weight or greater unless otherwise stated.

DELIVERY:

- All cattle will be weighed on a certified scale that is compliant with GIPSA (Grain Inspection and Packers & Stockyards Administration regulations.) This specifies that one of the two scale tests must occur between January 1 and June 30 of the calendar year and the second must occur between July 1 and December 31 of the calendar year. A minimum of 120 days is required between these two tests. More frequent testing is required for scales that do not maintain accuracy between tests. Cattle weighed on the ground will be weighed in full then sorted for any cuts and then the cuts will be weighed back. Cattle weighed on the truck will have cuts sorted off prior to loading.
- All cattle are sold FOB shipping point. Losses resulting from transit shall be buyer's liability. Freight rates are not guaranteed by CCV or seller.
- No freight adjustment will be given on cattle that weigh below the estimated base weight if merchantable head count is within 5% of contracted head count.
- All cattle will be sold on a sliding scale as described in each lot's information. Slide increases 2 cents if pay weight exceeds base weight 36# or more.
- If a lot has multiple options & buyer exercises the option to purchase all of stated lots, the contract becomes one lot.
- All percentages used to describe color are approximate and used for description only.
- **Cattle Country Video** will have a representative present at all shipments.
- Ship dates will be set at rep's option unless otherwise stated.
- Inspection & Warranties: Seller shall deliver within 5% of the above stated number of livestock, exclusive of any stags, cripples, blind, locoed, lump-jawed or otherwise unmerchantable livestock that are not as described above.
- Failure to Deliver: Upon the seller's failure to deliver to the buyer, the number of head stated in the contract (regardless of the reason, except an Act of God), the seller shall be liable for replacing any cattle not delivered with cattle of equal size and quality or pay the buyer the difference between the price stipulated in the livestock forward contract and the prevailing market price on the number of head not delivered, which shall be based on the average weight of those delivered and/or make the necessary freight adjustment to the buyer. The replacement of cattle, monetary adjustment and/or freight adjustment shall be at the seller's expense and the buyer's option and approval.

WARRANTIES:

- There are no warranties beyond what is expressly set forth in this contract. Seller & CCV representative, warrant that seller has good and marketable title to the livestock and that the livestock will be delivered free from all security interests, liens or encumbrances. If said cattle are subject to a lien, security interests or chattel mortgage, liens will be satisfied by seller at delivery.

PAYMENT:

- All purchases will require a \$100.00 per head part payment due and payable at the conclusion of the auction from buyers. Those buyers not present, using satellite, internet, or phone, to purchase livestock will be required to wire transfer funds the following business day. Seller will receive a down payment at conclusion of the auction.
- Part Payment: Upon the sale of the livestock CCV will advance the seller \$80.00 per head, as part payment, for the livestock described in this contract. In the event that seller fails to deliver the livestock as described in this contract, or if the cattle are rejected because they are not as described in this contract, or at the time of delivery there are any Federal or State regulations prohibiting interstate shipment of said livestock, seller shall return CCV all money advanced and this contract will become null and void. Seller acknowledges CCV will receive \$100.00 per head, as part payment, from the buyer. The \$20.00 per head received from buyer and not paid to seller will be held in CCV's Custodial Account for Shipper's Proceeds until the livestock deliver. **EXCEPTION:** No part payment will be paid on any cattle that deliver within 7 days after the conclusion of the auction.

PAYMENT *(continued)*:

- Acceptable payment upon shipment of the cattle will be as follows: **(A)** If buyer is present at delivery, full payment in collected funds must be received at delivery. **(B)** If the buyer is not present at delivery, payment must be received by **Cattle Country Video within one business day** after the cattle are received by the buyer at delivery point. All payments must be made by either wire transfer or ACH transfer. All fees incurred for wire transfer will be at the buyer's expense. In the event of multiple day shipments, payment will be required on each day's delivery. All payments will be made to **Cattle Country Video** Custodial Account for Shipper's Proceeds.
- **Execution:** Should buyer or seller not be present or available to execute the herein contract on auction day, the making of part payment by buyer, or the receipt and negotiation of part payment by seller, shall constitute full agreement by buyer or seller to the terms and conditions set forth herein. Mailing, postage prepaid, of the herein agreement to buyer or seller at their last known address, shall serve as full notice to buyer and seller of the said terms and conditions. Failure of buyer or seller to object in writing, facsimile transmission or first class US mail, to the terms and conditions herein, within twenty-four (24) hours after receiving notice, shall constitute notice, shall constitute a waiver on the part of buyer or seller of lack of notice, or agreement, to all the terms and conditions herein.
- **Security Agreement:** In consideration of Cattle Country Video making direct payment to seller on behalf of buyer, buyer hereby grants to Cattle Country Video a security interest in the livestock described herein, including the products and proceeds thereof; until such time as final payment of the full purchase price of said livestock is made by wire transfer of funds. Default shall exist if final payment is not received within one business day from the date buyer takes possession of the livestock described herein or upon the death, bankruptcy, or insolvency of the buyer or upon the sale of said livestock without Cattle Country Video representative, prior written permission. Upon default, CCV representative with or without notice, may exercise any and all rights accorded by law.
- **Default:** In the event of failure on the part of either the buyer or seller (parties), regardless of reason – except an act of God, to perform under the terms of this agreement, the non-defaulting party may pursue any available remedy at law or equity including specific performance against the defaulting party. In addition, the successful party in any action brought to enforce this agreement shall be entitled to costs and reasonable attorney's fees as determined by the Court.

A. In the event of default upon receipt of written notice clearly stating the default, Cattle Country Video shall deliver the balance of the down payment to the non-defaulting party or in the event of a dispute concerning the performance of either party, Cattle Country Video may deposit the down payment into an interest bearing account located at Pinnacle Bank, Torrington, WY and shall place both parties names on the account which shall require a signature from both parties to remove any of the money. Upon payment of the down payment as provided for in this paragraph, Cattle Country Video, its members, employees and representatives shall be released from any further liability and have no other obligations to either party. The parties understand and agree that Cattle Country Video does not guarantee to either party and is not a "party" to this agreement. The parties further understand and agree that all warranties either expressed or implied are between the parties.

B. The parties both agree that after payment of the money as described in this provision, they release Cattle Country Video, its representatives, members and employees from all responsibility for any default by either party. In no event shall Cattle Country Video be liable for lost profits or any special, incidental consequential damages however arising.

BUYER & SELLER RESPONSIBILITY:

- **Seller** agrees that the remaining balance, less commission due to CCV representative, &/or any necessary adjustments, shall be paid at the time of the delivery.
- **Seller** shall be responsible for the expense of weighing and all fees subject to Federal and State regulations; such as health inspection, brand inspection, Beef Checkoff and any other statutory fee requirements.
- **Seller** shall furnish any brand and health certificates required by Federal and State law and all affidavits pertaining to the contract. Buyer is responsible for notifying CCV representative when health certificates are needed. If additional certificates are required for delivery to another state, they shall be provided at the buyer's expense.
- **Seller** shall handle livestock in their normal and usual manner until delivery, unless otherwise expressly agreed in writing.
- Cattle Country Video cannot guarantee the "First Born Date" need for "Back Verification" on age and source verified cattle.
- **Buyer** can obtain necessary calving information from the age and source provider prior to purchasing cattle. Cattle Country Video cannot guarantee the availability of information or data from age and source providers.
- **No Sale or Pass Out Fee & Filming Fee:** Seller will be charged a \$5.00 per head nonrefundable filming fee on Calves and Yearlings, and a \$15.00 per head fee for Bred Cattle and Cow/Calf Pairs. This fee will also be used as a Pass Out/No Sale fee. Consignor has the right to No Sale their consignment or consignments but must be declared by the conclusion of next consignment lot.
- **Scratch Fee:** If by certain circumstances an owner withdraws their livestock from an auction before the catalog is printed they will not be charged a scratch fee. If the consignment makes the catalog and the owner scratches said consignment then there will be a charge of \$5.00 per head on calves and yearlings and \$15.00 per head on bred cattle.

CCV RESPONSIBILITY:

- Cattle Country Video is a production company only and assumes no financial responsibility for cattle represented in our video sales.
- This contract contains the entire agreement between seller and buyer.
- Cattle Country Video and its representatives are not financially responsible for any loss incurred from acts of God pertaining to livestock or freight.

SLIDES:

All cattle will be sold on a sliding scale with one of the slides described below.

Traditional Slide

If the average weight is over the original base weight the price will be adjusted by the amount stated in the contract for every pound over the base weight.

Example:

Base weight of 800#: Steer purchase price of \$150.00/cwt, with a slide of \$.08
Average pay weight of 830# on day of delivery
 $830\# - 800\# = 30\#$ over base weight
 $30\# \times \$0.08 = \$2.40/\text{cwt}$ off purchase price
 $\$150.00/\text{cwt} - \$2.40/\text{cwt} = \$147.60/\text{cwt}$ adjusted price

Weight Stop

A weight stop can be placed on a Lot of cattle which gives an option to the buyer to purchase extra weight but not have to pay for it (Or anything over 35 lbs is free).

Example:

Slide: \$.08
Weight Stop: 35#
Average pay weight is 840#; weight stop is at 835# so the last 5# is free
 $35\# \times \$0.08 = \$2.80/\text{cwt}$
 $\$150.00/\text{cwt} - \$2.80 = \$147.20/\text{cwt}$ adjusted price

Two-Way Slide

Slide off decreases price per CWT by stated slide amount starting at 1 lb over base weight, stopping at stated stop (35 lbs max). Slide on increases price per CWT by stated slide amount starting at 1 lb under base weight stopping @ stated stop (35 lbs max).

Example:

Over Base Weight

Weight stop at 35# over base weight
840# average pay weight - (same as above)
760# average pay weight

Under Base Weight

$800\# - 760\# = 40\#$ under base weight and price stop at 35# under base weight
 $35\# \times \$0.08 = \$2.80/\text{cwt} = \$152.80/\text{cwt}$ adjusted price

BREEDING HEIFERS, BREEDING COWS & FEEDING HEIFERS:

- a. Guaranteed Open Heifers: heifers that will be pregnancy checked by a licensed veterinarian at seller's expense, within 14 days of delivery. At delivery, heifers will be accompanied by a certificate from a veterinarian verifying they are open. All tests (palpation, ultrasound or blood test) must be done by a licensed vet. Buyers will have the option to re-pregnancy check heifers within 48 hours after day of shipment at buyer's expense.
- b. Running to Be Open Heifers that are not known to be with a bull but could have been exposed. There is no guarantee by either the seller or CCV.
- c. All Bred Cows and Heifers must be verified by a licensed veterinarian through either Palpation or Ultrasound. Preg check must be done within 7 days of delivery at seller's expense. Seller will furnish a veterinarian's certificate at time of delivery. The buyer will have the right to have a veterinarian of his choice re-preg and mouth the cattle, at delivery, at his expense. Breeding and calving dates are required whether A.I. or natural service.
- d. The state of entry, health entry requirements are the responsibility of the buyer. The seller will supply the health certificate that is appropriate by the original state & federal law for interstate shipment. If there are any further health certificates or tests that are needed for the terminal state, it will be at the buyer's demand & expense.
- e. Each buyer (at buyer's expense) is given the right to administer a veterinarian of his/her choice at the delivery to pregnancy check and/or mouth any of their breeding stock. If the buyer does not use their right to administer his/her own veterinarian, he/she accepts the veterinarians certificate without recourse on Cattle Country Video and Independent Reps or of the seller.
- f. A variation of more than 5% may occur on head counts depending on the results of blood test, fertility test, age determination, and palpation.

Cattle Country Video

VACC PROGRAM

CCV²⁴

(Calves vaccinated at branding 2-4 months)
IBR-PI3-BVD-BRSV (Modified live)
Clostridial 7-Way (Black Leg)
Optional Parasite control

One Shot. Two Ingredients. Fast Recovery.

**Draxxin® KP can treat BRD
and control fever quickly.^{1,2}**

Start treating bovine respiratory disease (BRD) and fever quickly with Draxxin® KP (tulathromycin and ketoprofen injection) Injectable Solution. The long-lasting BRD treatment you trust now has added fever control that can help support animal well-being.^{1,2*} **It's an effective combination that can help your cattle recover from BRD and fever fast, which can help them feel better.***

Learn more at DraxxinKP.com

IMPORTANT SAFETY INFORMATION: Draxxin KP has a pre-slaughter withdrawal time of 18 days in cattle. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in animals previously found to be hypersensitive to tulathromycin and ketoprofen. See Brief Summary of Full Prescribing Information below.

*Draxxin KP animals showed numerically improved attitude and respiratory scores compared with saline-treated and Draxxin-treated animals.

Brief Summary of full Prescribing Information

For subcutaneous injection

Antibiotic: 100 mg of Tulathromycin/mL

Non-Steroidal Anti-inflammatory Drug: 120 mg Ketoprofen/mL

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian

DESCRIPTION

DRAXXIN KP (tulathromycin and ketoprofen injection) Injectable Solution is a ready to use sterile parenteral preparation containing tulathromycin, a semi-synthetic macrolide antibiotic of the subclass triamides and ketoprofen a non-steroidal anti-inflammatory drug. **ACTIVE INGREDIENTS:** Each mL of DRAXXIN KP contains 100 mg of tulathromycin as a free base and 120 mg ketoprofen as a free acid in a 50% propylene glycol vehicle. **INACTIVE INGREDIENTS:** monothiolglycerol (5 mg/mL), 2-pyrrolidone (70 mg/mL), citric acid (20 mg/mL) and sodium hydroxide/hydrochloric acid added to adjust pH. DRAXXIN KP contains an equilibrated mixture of two isomeric forms of tulathromycin in a 9:1 ratio and a racemic mixture of ketoprofen.

The chemical names of the tulathromycin isomers are (2R,3S,4R,5R,8R,10R,11R,12S,13S,14R)-13-[[[2,6-dideoxy-3-C-methyl-3-O-methyl-4-C-[[[propylamino)methyl]-α-L-ribo-hexopyranosyl]oxy]-2-ethyl-3,4,10-trihydroxy-3,5,8,10,12,14-hexamethyl-11-[[[3,4,6-trideoxy-3-(dimethylamino)-β-D-xyllo-hexopyranosyl]oxy]-1-oxa-6-azacyclotridecan-15-one and (2R,3R,6R,8R,9R,10S,11S,12R)-11-[[[2,6-dideoxy-3-C-methyl-3-O-methyl-4-C-[[[propylamino)methyl]-α-L-ribo-hexopyranosyl]oxy]-2-[[[1S,2R]-1,2-dihydroxy-1-methylbutyl]-8-hydroxy-3,6,8,10,12-pentamethyl-9-[[[3,4,6-trideoxy-3-(dimethylamino)-β-D-xyllo-hexopyranosyl]oxy]-1-oxa-4-azacyclotridecan-13-one, respectively.

The chemical name of ketoprofen is 2-[(3-Benzoylphenyl) propanoic acid.

INDICATIONS

Draxxin® KP is indicated for the treatment of bovine respiratory disease (BRD) associated with *Mannheimia haemolytica*, *Pasteurella multocida*, *Histophilus somni*, and *Mycoplasma bovis*, and control of pyrexia associated with BRD in beef steers, beef heifers, beef calves 2 months of age and older, beef bulls, dairy bulls, and replacement dairy heifers. Not for use in reproducing animals over one year of age, dairy calves, or veal calves.

DOSAGE AND ADMINISTRATION

Inject subcutaneously as a single dose in the neck at a dosage of 2.5 mg tulathromycin and 3 mg ketoprofen/kg (1.1 mL/100 lb) bodyweight (BW). Do not inject more than 10 mL per injection site. Use this product within 56 days of the first puncture and puncture a maximum of 20 times. If more than 20 punctures are anticipated, the use of automatic injection equipment or a repeater syringe is recommended. When using a draw-off spike or needle with bore diameter larger than 16 gauge, discard any product remaining in the vial immediately after use.

Table 1. DRAXXIN KP Cattle Dosing Guide

Animal Weight (lb)	Dose Volume (mL)
150	1.7
200	2.3
250	2.8
300	3.4
350	4.0
400	4.5
500	5.7
600	6.8
700	8.0
800	9.1
900	10.2
1000	11.4

CONTRAINDICATIONS

The use of DRAXXIN KP Injection is contraindicated in animals previously found to be hypersensitive to tulathromycin and ketoprofen.

WITHDRAWAL PERIODS AND RESIDUE WARNINGS: Cattle must not be slaughtered for human consumption within 18 days following last treatment with this drug product. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows; use in these cattle may cause drug residues in milk and/or in calves born to these cows or heifers. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves.

USER SAFETY WARNINGS:

NOT FOR HUMAN USE. KEEP OUT OF REACH OF CHILDREN.

The Safety Data Sheet (SDS) provides more detailed occupational safety information. To obtain a Safety Data Sheet contact Zoetis Inc. at 1-888-963-8471.

ANIMAL SAFETY WARNINGS and PRECAUTIONS

The effects of DRAXXIN KP on bovine reproductive performance, pregnancy, and lactation have not been determined. Not for use in reproducing animals over one year of age because reproductive safety testing has not been conducted. Administration of tulathromycin and ketoprofen injection may result in injection site swelling that appears the day after treatment and may persist for at least 32 days post-injection. This may result in trim loss of edible tissue at slaughter.

As a class, cyclo-oxygenase inhibitory NSAIDs (Ketoprofen) may be associated with gastrointestinal, hepatic and renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for renal toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with renal, cardiovascular, and/or hepatic dysfunction. Use judiciously when renal impairment or gastric ulceration is suspected.

Since many NSAIDs possess the potential to induce gastrointestinal ulceration, concomitant use of DRAXXIN KP with other anti-inflammatory drugs, such as other NSAIDs and corticosteroids, should be avoided or closely monitored. Discontinue use if fecal blood is observed.

ADVERSE REACTIONS

Repeated administration of NSAIDs can result in gastric or renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with pre-existing gastric ulcers, renal, cardiovascular, and/or hepatic dysfunction.

HOW SUPPLIED

DRAXXIN KP Injection is available in the following package sizes:
50 mL vial; 100 mL vial; 250 mL vial; 500 mL vial

STORAGE CONDITIONS

Store at or below 25°C (77°F), with excursions up to 40°C (104°F). Protect from freezing.

Comments: The start of the 1,765 hd of Heittings long time reputation program. High percentage bought in load lots. Always buys front end w/big bone & length. Sort for size going to grass, bunk broke & wintered at ranches. Always positive feedback from repeat buyers. Consistency from year to year. Look at this lot & the next 4. Good delivery from great people. Buyer has option to buy 5 either/or 10 lds, gate cut.

BALANCER[®]

Gelbvieh x Angus or Red Angus

ADDING THE POUNDS

Steers in the 2018 AGA Scale and Rail Contest had an average daily gain of **4 lbs.** per day in the feedyard.

MAKING THE GRADE

Many feeders have reported Balancer-sired cattle that grade **90% Choice or better.**

DELIVERING THE VALUE

Gelbvieh rank #1 for percent retail product according to U.S. Meat Animal Research Center progress report #22.

PROVIDING VALUE ON THE RAIL

Carcass data from 156 steers fed in 2018, on an aggressive implant program and harvested at 15 months of age prove Balancer cattle are the smart choice for feedyard profitability. These Balancer-influenced calves averaged **90% Choice and higher, 92% Yield Grade 1, 2, and 3**, an average **hot carcass weight of 958 lbs.**, and converted at **5.47 lbs.** of feed per live pound of gain.

"THESE BALANCERS ARE ONE OF THE BEST KEPT SECRETS IN THE CATTLE INDUSTRY."

—Adam Sindt, Riverview Farms, south-central Nebraska

Lot 8354 Bill & Marcia, Will & Kerri Lambert **200 Steer Calves** **Base Wt. 565**
Location: Lambert Ranch ; 30 mi N of Newcastle, WY **Slide:** 12¢ off @ base weight.
Breed: 95% Red; 5% Blk; Red Ang & Blk Ang cows; Red Ang bulls;
Origin: Ranch Raised **Delivered:** 10/21/2022 to 10/31/2022 Rep Option
Feed: On cows on native pasture, summered in the Black Hills **Wt Var:** Slightly Uneven **Frame:** Med-Large **Flesh** Med
Shots Spring:Vista Once SQ, 20/20 Vision 7; Fall: 5-Way, Pinkeye, Nasalgen, 7-Way/Somnus
Weigh Up: Early AM gather, pre-sexed on cows, sort off cows, sort for loads, haul 30 miles to Newcastle on buyer's pre-weighted trucks & weigh w/a 1%
Other Info: Knife Cut **Program:** Allied Access
Comments: All shots in Spring & Fall given in neck. Fancy 2-way kind of clvs, few nipped ears. This will be the top end of 310 hd.
Rep: CCV Justin Smith (307) 340-0724

Lot 8355 Robert or Debbie Gibbs **200 Steer Calves** **Base Wt. 600**
Location: Jordan, MT; 85 mi W of Glendive, MT **12¢ off/on up to 30# over/under base weight. Wt Stop @ 630**
Breed: 100% Red ; Red Ang cows; Red Ang (Southerland Red Ang, Heart River Red Ang, Lavbough Red Ang) bulls;
Origin: Ranch Raised **Delivered:** 10/17/2022 to 10/24/2022 Rep Option
Feed: On cows on native grass, salt & mineral (ADM mineral program) **Wt Var:** Uneven **Frame:** Med-Large **Flesh** Med
Shots Branding: One Shot BVD, Inforce 3, Cavalry 9, Poured w/Dectomax; Pre-Cond: BoviShield Gold One Shot, UltraBac 7, poured w/Dectomax
Weigh Up: Early AM gather, from pasture, sort off cow, sex & haul 12 miles, in trailers, unload & weigh on the ground w/a 1%; There are 12-15 clvs hauled 45 miles & weighed straight
Other Info: Banded
Age/Src: Certified Red Angus **Tag Type:** Dangle Tag
Comments: Fancy set of E MT Red Ang str clvs that will really perform in the feedlot. Cattle are deep bodied w/a lot of stretch in them. Clvs are carrying the Red Ang Dangle Tags. Non implanted cattle are gentle & easy to handle. Plenty of cattle to work with. They are not all natural.
Rep: Torrington Scott Klind (406) 670-2875

PARAMOUNT

Authenticate your Red Angus genetics.

Now is a paramount time to verify your genetics in the Feeder Calf Certification Program. The Red Angus Live Animal Specification, recognized by the USDA, acknowledges Red Angus are genetically Angus and meet requirements to be included in many Angus branded-beef programs.

**Capitalize on
Red Angus-based
opportunities.**
